JavaScript

JavaScript is a dynamic interpreted scripting language that can be used to create web applications, backend services, games, mobile applications, and just about anything else you can imagine.

Early JavaScript Releases

1997

ES1

Initial specification

1999

ES3

Try/catch, RegEx

2009

ES5

Many new capabilities

2017

ES2017 (ES7)

Async/Await

1998

ES2

Editorial changes

1999-2008

ES4

Fight for future of JS

2015

ES6 (ES2015)

Modern foundation
